

# BLESSED MAN

(Neil Murray)

*"Good humans are still to be found, toiling in hospitals, marketplaces and country towns. Generous, kind-hearted people to whom money makes no difference. Hope rises in the world when a leader emerges that is a living example of the same kind of qualities of kindness, compassion, honesty & trust. Reminding us how to be."*

A blessed man said the woman  
there goes a blessed man  
For he healed her from sickness  
Now she reaches for his hand  
He smiles at her and  
her heart fills with gratitude  
To be touched by a blessed man.

There's no money to be paid  
For the deeds of a blessed man  
just the kindness in his heart  
will make you understand  
we're in this world to help each other  
and keep nothing for ourselves

A blessed man  
Is what this earth needs  
A blessed man  
He must be  
A blessed man save us from our greedy selves  
A blessed man to believe

A blessed man has come  
To lead a great nation  
And the people are hoping  
He'll be their salvation  
But he cannot do not without  
The faith in all their hearts.

A blessed man  
Is what this earth needs  
A blessed man  
He must be  
A blessed man lead us to our higher selves  
A blessed man to believe

A blessed man  
More of them we need  
A blessed man  
Where could he be?  
A blessed man  
Lead us to our higher selves  
A blessed man to believe.
