

COLD WEATHER

(Neil Murray/Sammy Butcher)

Cold wind blew in from the east today
I woke up shiverin' in a drizzlin' rain
Somewhere, someone's done somethin' wrong
'Cause cold weather has come
Cold weather

We're sitting tight now tryin' to keep warm
Wind blowing through the cracks at my back door
Ice dreamin' creepin' down into my bones
Cold weather won't you leave us alone
Cold weather

All around the sky is dark and grey
For six days, nothin' but rain
When will you go away
Cold weather (cold weather)

Cold wind still blowin' at the break of day
We gotta get wood, we've gotta look for a cave
Somewhere someone's done something wrong
'Cause cold weather has come
Cold weather

You think it's easy this living
Being outdoors close to nature
Try doin' it when cold weather has come
Cold weather

I can't remember, I can't remember
I can't remember warm sunny days
Give me, give me warm, sunny days
Give me, give me warm, sunny days
Cold weather when will you go away
Go away, go away
