

# KEY TO MY HEART

(Neil Murray)

I'm out the road, I'm going tonight  
I got to get to you, by light  
I know we fell out when we last spoke  
And now I'm just about ready to choke  
'Cause I'm sorry baby  
I'll eat crow

I'll even put ya in my show  
'Cause you're the only one that turns my head around

You got the key to my heart and you don't even know it  
You're making me start  
Yeah girl, you got me  
I'm frightened I'll blow it

I remember when we first met  
Somethin' clicked in my head  
And then we had a lovers' tiff  
But that don't mean we have to quit  
'Cause you're the best  
You got my vote  
You've even got my leather coat

I love you baby  
You're turning my night into day

You got the key to my heart and you don't even know it  
You're making me start  
Yeah girl, you got me  
I'm frightened I'll blow it

Baby, baby it's been too long since we sang the song of songs  
I have to see ya  
I have to confess  
I'll even try a little tenderness  
'Cause you're turning my night  
You're turning my night  
You're turning my night  
You're turning my night  
You're turning my night into day

You got the key to my heart and you don't even know it  
You're making me start  
Yeah girl, you got me  
I'm frightened I'll blow it
