

SING THE SONG

(Neil Murray)

There's time to sing but one more song
And then we'll have to go
We need a song to fill our hearts and take us down the road
A song to carry us far away to a place we long to be
A song to let God know what we feel
A song to set us free

So sing the song and make us forget
All our troubles and our woes
Sing the song we're longing to hear
The one that speaks to our soul
The world's waking up to a mess in the house
And we need to dance while we can
Sing the song we cheer for
Sing and clap our hands

One song to sing before we die
One song to bring us peace
Sing the song of true love
Where a child can safely sleep

Sing the song that gives us joy or the one that brings us tears
Sing the song we're prayin' for
The one we truly feel
Sing the song that will lift our spirit
To carry the unbearable load
Sing the song we're waiting for
Sing before you go

One song to sing before we die
One song to bring us peace
Sing the song of true love
Where a child can safely sleep
