

WINGS TO WORK

(Neil Murray)

There were storms on the highway
As I drove from her town
But there's nothing that could make me
Turn back round
For I had dreams, shine like a light
And I watched them go off in the night
I had beauty fall apart in my hands
I had lies I'll never understand

The touch of a child kept me sane
Through all the dark years I took her rage
For being abandoned and afraid
Falling prey to evil ways
I thought love would be a cure
But I was a fool to endure
For I'd be free, free as a bird
If I could get the wings to work

It don't get easy the further you go
And it takes longer to get on the road
I can't imagine what kind of chain
Kept me down in a cave

Well I don't mean to sound bitter
For in truth I won't forget her
All the suffering and the effort
Never meant we'd be together
And the only thing to be learned
Is how much pain can burn
For I'd be free as a bird
If I could get the wings to work

I wish there was something
She could fix
For herself
I did my best
But the strain on my soul
Was dragging me down into a hole
I'll be free in the world
I'll be free in the world
When I get the wings to work
I'll be free
Once I get these wings to work
These wings to work
(Free in the world
When I get the wings to work)
(Free in the world)
I'll be free
(When I get the wings to work)
Yeah, yeah, yeah
