

# BETWEEN THE MOUNTAINS AND THE SEA

(Neil Murray/Shane Howard)

Been working up the coast, and drifting on the plains  
Caught between the settled life and on the road again  
People always ask me where it is I'm from  
I find it hard to tell them so I put it in a song

Eagle in the mountain Floating on a breeze  
Shark out in the ocean He's happy in the deep  
Me I got my own place its good enough for me  
You can find me anywhere Between the mountains and the sea

I've been a lot of places, done lot of things  
Some of em were so good I did those things again  
The town that I was born in knows me all too well  
I hope they take me back there when the keeper rings the bell

Eagle in the mountain, Floating on a breeze  
Shark out in the ocean, He's happy in the deep  
Me I got my own place, Its good enough for me  
You can find me anywhere Between the mountains and the sea

Eagle in the mountain Rainbow in the sky  
Shark out in the ocean following the tide  
The spirit in this country I hear it speak to me  
When the wind is blowing  
Between the mountains and the sea  
When the wind is calling  
Between the mountains and the sea.
