

# FROM THE BUSH

(Neil Murray/George Rurrambu)

Listen to me I'm from the bush  
I'm talkin' to you from the bush  
You wanna dig hole in the ground  
You wanna drag us into ya town  
You want progress you want the lot  
You want the progress at any cost  
You always take and never put back  
Can't keep going down the track  
We're comin' last in the land of plenty  
You've gotta give or you'll make it empty

Listen to me I'm from the bush  
I'm talkin' to you from the bush  
Got my life from the bush  
I'm different to you

You've got all you need  
We don't ask for much  
In the bush  
You've got all you need  
Can't you understand  
We got to have our land  
In the bush  
Where I live  
In the bush

You can keep your Opera House and your MCG  
You can keep your company home  
It don't mean nothin' to me  
We're not tryin' to take away your suburban backyard  
We won't be spearing any sheep down on your farm

My life is different to yours  
What are you worried for?  
You got the money you got the lot  
You got it all but you still don't stop

Just want land in the bush  
To Stay alive in the bush  
You've got all you need  
We don't ask for much  
In the bush  
You've got all you need  
Can't you understand?  
We got to have our land  
In the bush  
You've got all you need  
Can't you listen to us?

We know how to share it up  
In the bush  
You've got all you need  
Can't you understand?  
We got to have our land  
In the bush  
Listen to me  
I'm talkin' to you  
From the bush
