

# MY COUNTRYSIDE

(Neil Murray)

Well Dan was a man  
He'd grown up on the land  
Till he left for another way of life  
He got a plum job  
Saved a few bob  
Set himself up with a city bride  
Well they dressed up flash  
And they hit all the traps  
But he knew he wasn't satisfied  
Told his wife one day, "I'll have to go away  
I can't change my countryside"

'Cause there's a shack on the flat  
And it's a-way outback  
Where a campfire's burnin' bright  
If you come with me  
I'll show you how to be  
At home in the countryside  
At home, in the countryside

Now farmer Brown left for the town  
'Cause the drought and the costs had crippled him  
Well it's hard to adjust but you can if you must  
That's what he told his country friends  
But even then his life felt thin  
He knew he wasn't satisfied  
Closed his eyes at night, hoping that he might  
Wake up in the countryside

'Cause there's a shack on the flat  
And it's a-way outback  
Where a campfire's burnin' bright  
If you come with me  
I'll show you how to be  
At home in the countryside  
At home, in the countryside  
All right

Even then his life felt thin  
He knew he wasn't satisfied  
Closed his eyes at night, hoping that he might  
Wake up in the countryside

'Cause there's a shack on the flat  
And it's a-way outback  
Where a campfire's burnin' bright (burnin' bright)  
If you come with me  
I'll show you how to be (how to be)  
At home in the countryside

Well the moon's off the ridge  
Over a creek bed camp  
The gum trees are callin' me tonight (callin', callin')  
There's a grey sky know where we all will go  
When we're back in the countryside  
When we're back in the countryside  
Well we're back in the countryside
