

NO JUSTICE DONE

(Neil Murray)

Too many died at the hands of the law
Too many suffered and not spoken for
Grieving families waiting in vain
For justice to come some sunny day
Deaths in custody a national disgrace
Been like that since 1788
Put yourself in any brother's place
To feel what it's like to feel the hate

*No justice done
Not then, not now
No justice for anyone*

Too many cops killing innocent brothers
Too many died calling for their mothers
you get arrested know your life's at stake
Cause if you're black that makes you suspect
they got the guns they got the law
But no one questions what the cops are for
supposed to protect the citizenry
it feels more like they're the enemy

*when there's no Justice done
Not then not now
No justice for anyone*

Recommendations from a royal commission
Never been implemented in the prisons
Kumantjayi Walker and Cameron Doomadgee,
David Dungay, J C and Tanya Day,
hundreds of names who met the same fate
how long do the families have to wait,
with a justice system set to flaw
never to convict a member of the force.

*No Justice done, Not then not now
No justice for anyone ,No justice done
Not then not now No justice for anyone.*
