

# ONE SHINING STAR

(Neil Murray)

An offering to the Goddess- an ode of devotion to the fairer sex.

Always to be always to be  
My true silent prayers  
I sing them for thee

How long years have kept  
How long years have kept  
Our arms from embrace  
my gaze from your face

Oh her gentle loving hands  
her gentle loving hands  
her beauty is a blessing  
To grace upon this land

Her quiet sweet heart  
Her soft kind voice  
Her loving ways  
That fill my soul with joy.

There's just one life  
just one life  
I live only to see  
Her bright smiling eyes

Oh we had our time  
we had our time  
No more shall we lie  
Beneath the starry sky

May heaven you receive  
Heaven receive  
One shining star  
And keep her there for me

For I will be coming  
I'll follow you home  
I'll be there by morning  
You'll never be alone

One shining star  
One shining star  
No matter how distant  
No matter how far

I'll keep her in sight  
I'll hold to the light  
I live only to see her  
Bright smiling eyes

To hold her in grace  
To hold her in faith  
That one shining star  
forever keep you safe

For I will be coming  
I'll follow you home  
I'll be there by morning  
You'll never be alone

One shining star  
One shining star  
No matter how distant  
No matter how far  
May heaven you receive  
Heaven receive  
One shining star  
keep her there for me
