

# OVER THE MOON

(Neil Murray)

Sometimes I'm taken, a long way from home  
That's when I'm shakin', need to get ya on the phone  
To tell ya I treasure every stone, flower & feather  
You ever gave me, in your own sweet way  
And nothin' can change, the way I feel about you  
Lovin' me  
And me lovin' you  
It's here in my heart  
Let the light shine on you  
You know I'll always  
Be over the moon

When you're with me  
I feel bigger than myself  
When ya call me, when ya call me you know I  
Drop everythin' else

'Cause nothin' can change, the way I feel about you  
Lovin' me  
And me lovin' you  
It's here in my heart  
Let the light shine on you  
You know I'll always  
Be over the moon

Sometimes I wonder  
Where I might be if you weren't there  
Well I wouldn't have an anchor  
I'd just be driftin' in thin air  
When you're in motion, I'm movin' too  
Whenever you're rollin', I'm rollin' too

And nothin' can change, the way I feel about you  
Lovin' me  
And me lovin' you  
It's here in my heart (here in my heart)  
Let the light shine on you (shine on you)  
Forever and ever (forever and ever)  
We're over the moon (over the moon)

I wanna be the ground (here in my heart)  
For you to grow from (shine on you)  
And I'll be the trees (forever and ever)  
For you to climb high on (over the moon)  
It's here in my heart (here in my heart)  
Let the light shine on you (shine on you)  
Forever and ever (forever and ever)  
We're over the moon (over the moon)

Here in my heart  
Shine on you  
Forever and ever  
Over the moon
