

SEVEN DAYS OF RAIN

(Neil Murray)

The afternoon is cloudy and still
I hear the call of a crow from the hill
Black cockatoos fly over head
I see you shake the sheets out of the bed
Now all the birds they have flown
They know when to stay and when to go
Looks like me and you have got to pay
Seven days of rain are on the way

I should've known better at the time
I should have paid attention to the signs

Seven days of rain been coming down
There's not a dry place to be found
Since me and you had a falling out
Seven days of rain been coming down

I should've known better at the time
I should have paid attention to the signs

Seven days of rain been coming down
There ain't a dry place to be found
I wish I had my feet back on the ground
Seven days of rain keep falling down

I am a lone sailor upon the sea
And there's a stormy sky in front of me
I am a lone sailor upon the sea
And there's a stormy sky in front of me
